## Discovery Project

For young people aged 14 - 19 with autistic spectrum disorders

The Discovery Project is a free mentoring project organised by Cardiff University for young people with ASD between the ages of 14 and 19. The project aims to equip young people with the skills they need to survive at university. Meeting fortnightly from October - April, project members will have the opportunity to be mentored by current university students through activities (such as bowling and ice skating), university taster days, and workshops to support studies & applications for jobs, college and university.
