

Dear Parent/Carer,

Pupils wellbeing will always be a priority at Stanwell. We want all our pupils to have a positive time at school and feel comfortable in their learning environment. With this in mind we would like pupils to complete our wellbeing questionnaires at different intervals throughout the year. **The questionnaires are not compulsory and pupils do not have to participate.**

The first questionnaire we ask pupils to complete is based on the Estyn pupil questionnaire. It is very important to us to hear learners' views so that we are able to have a dialogue with our pupils.

The second questionnaire helps us to establish how pupils feel about themselves and others.

The information is used to help us plan what we do as a whole school to develop all pupils' wellbeing. We also use it to help us decide whether some pupils would benefit from any extra support. We will contact you to discuss any interventions if we believe that individuals would benefit from any extra support.

If you would like more information, please contact me on 029 20707633 and I will be happy to discuss your concerns.

Yours faithfully

Miss L Jenkins  
Assistant Headteacher
