

Dear Parents/Carers,

The UK Government has tonight issued further instructions re: measures to combat the spread of coronavirus.

From this point, whole-household isolation for a period of 14 days is instructed. This means that if a person living in the same house develops symptoms of coronavirus (new, persistent cough or fever) ALL other members of the household must be isolated for 14 days even if showing no symptoms. It is vital that all members of the school community respect these instructions in order to protect everyone's health and wellbeing. Please inform the school by email or telephone if your child/family is in isolation.

Thank you in advance for your co-operation and best wishes to you all.
