

Dear Parents/Carers,

In a press conference this afternoon, it was announced that schools in Wales will re-open on 29th June 2020 to all year groups, with up to a third of total pupil numbers being on site at any one time. This will require a phased approach with staggered start and finish times and year groups split into separate cohorts. The Welsh Government will be issuing procedural guidance to schools next week and we will update you as soon as possible after this with details of how Stanwell School will be organising the return of pupils from 29th June. We are currently modelling different options to ensure optimum safety and hygiene measures are implemented. We thank you again for your support during this period.
