

GCSE

Science

Science is compulsory and is not part of the Year 8 options process.

In Year 9 all pupils will complete work in lessons that will introduce them to GCSE Science.

Pupils will be set based on their performance in Year 8.

Pupils will be assessed throughout Year 9 and this information will be used to decide the most appropriate course for Year 10 and 11.

No option to do Separate Science will be available at any point in KS4.

At the end of Year 9:

- Sets 1 and 2 will follow the Separate Science course
- Sets 3, 4 and 5 will follow the Higher Tier Double Award course
- Set 6 will follow the Applied Science Single Award course.
